

Year 3 Spring 2 Homework

Stone Age to Iron Age

Reading

You should try to read for at least 20 minutes each day but we expect you to read at least 5 times a week and record this on your reading Bookmark, which should be returned every **Monday**.

Try reading books, comics, newspapers like *First News* or other texts. Remember reading is part of everyday life - you could read out a recipe or instructions to a game!

If you read a book that you would like to recommend, you could complete a book review and share this with your class, year group or even the school.

You will take your reading pack home every **Wednesday** and bring it back on **Monday**.

Remember to bring in your reading bookmark every **Monday** for Mrs Doll and Miss Ball to count up your reads to reward your Bronze, Silver and Gold reading awards.

Maths

By the end of Year 3 you should know your x3, x4 and x8 times tables, including the division facts. The x2, x5 and x10 times tables should already be known. We cannot emphasise enough how important it is for you to learn and practise your times tables each week.

Practise your times tables by logging onto [TT Rockstars](#) and help your class out against the other classes in the Rockstars battle each week! Also improve maths fluency by playing Numbots using the same login!

You can also use [Hit the Button](#) as a fun way of testing your timestables.

Weekly tests will continue every **Friday**.

Home learning project (Optional)

These activities can be done in any order; you could choose to do one or several. Bring your completed projects into school before the end of the half term so that they can be displayed and celebrated.

This half term our history learning focus is Stone Age to Iron Age.

To help support this learning you can create a home learning project that will be displayed and presented to the rest of the year group.

Here are a few suggestions:

- Get creative: draw, make, label an Iron Age house (this could be a model).
- Research animals alive during the Stone Age to Iron Age.
- Create a cave painting (you could tell a story through the art).
- Design a piece of jewellery for an Iron Age cloak.
- Design an outfit for an Iron Age person.
- Research Stonehenge. This could include a drawing/painting.

We see homework as serving 2 main purposes:

Providing **opportunity** to learn new things and build on existing knowledge.

Encouraging **responsibility** in children's own learning.

We ask that parents support this ethos and encourage children to complete the tasks that are set, listening to them read and supporting them in learning their times tables.

Due date for project:
Friday 28th March 2025
