

CALMORE JUNIOR SCHOOL BEST VALUE STATEMENT 2026/7

Introduction

The Governing Body is accountable for the way in which the school's resources are allocated to meet the objectives set out in the school's development plans. Governors need to secure the best possible outcome for pupils, in the most efficient and effective way, at a reasonable cost. This will lead to continuous improvement in the school's achievements and services

What Is Best Value?

Governors will apply the four principles of **best value**:

- **Challenge** - Is the school's performance high enough? Why and how is a service provided? Do we still need it? Can it be delivered differently? What do parents want?
- **Compare** - How does the school's pupil performance and financial performance compare with all schools? How does it compare with LA schools? How does it compare with similar schools?
- **Consult** - How does the school seek the views of stakeholders about the services the school provides?
- **Compete** - How does the school secure efficient and effective services? Are services of appropriate quality and economic?

The Governors' Approach

The Governors, the Senior leadership team and the School Business Manager will apply the principles of *best value* when making decisions about:

- the allocation of resources to best promote the aims and values of the school.
- the targeting of resources to best improve standards and the quality of provision.
- the use of resources to best support the various educational needs of all pupils.

Governors, the Senior leadership team and the School Business Manager will:

- make comparisons with other/similar schools using data provided by the LA and the Government, e.g. RAISE, quality of teaching & learning, levels of expenditure
- challenge proposals, examining them for effectiveness, efficiency, and cost, e.g. setting of annual pupil achievement targets
- require suppliers to compete on grounds of cost, and quality/suitability of services/products/backup arrangements
- consult individuals and organisations on quality/suitability of service we provide to parents and pupils, and services we receive from providers

This will apply in particular to:

- staffing
- use of premises
- use of resources
- quality of teaching
- quality of learning
- purchasing
- pupils' welfare
- health and safety.

Governors, the Senior leadership team and the School Business Manager

- will not waste time and resources on investigating minor areas where few improvements can be achieved

- will not waste time and resources to make minor savings in costs
- will not waste time and resources by seeking tenders for minor supplies and services.

The pursuit of minor improvements or savings is not cost effective if the administration involves substantial time or costs. Time wasted on minor improvements or savings can also distract the leadership team from more important or valuable areas.

Staffing

Governors, the senior leadership team and the School Business Manager will deploy staff to provide best value in terms of quality of teaching, quality of learning, adult-pupil ratio and curriculum management, given available resources.

Use of Premises

Governors, the senior leadership team and the School Business Manager will consider the allocation and use of teaching areas, support areas and communal areas, to provide the best environment for teaching & learning, for support services, and for communal access to central resources.

Use of Resources

Governors, the senior leadership team and the School Business Manager will deploy equipment, materials and services to provide pupils and staff with resources which support quality of teaching and quality of learning.

Purchasing

Governors, the Senior leadership team and the School Business Manager will develop procedures for assessing need, and obtaining goods and services which provide "best value" in terms of suitability, efficiency, time and cost. Measures already in place include:

- competitive tendering procedures (e.g. for goods and services)
- procedures for accepting "best value" quotes, which are not necessarily the cheapest (e.g. suitability for purpose and quality of workmanship)
- procedures which minimise office time by the purchase of certain goods or services
