

## Year 5 Autumn 1 Homework

### Reading

You should try to read for at least 20 minutes each day, at least 5 times a week and record this on your reading bookmark.

Try reading books, comics, newspapers like *First News* or other texts. Remember reading is part of everyday life - you could read out a recipe or instructions to a game!

If you read a book that you would like to recommend, you could complete a book review and share this with your class, year group or even the school. We will share some of these in our weekly focus.

Remember to bring in your reading log every **Friday** for Miss Peckham and Mrs Jones to count up your reads to reward your Bronze, Silver and Gold reading awards.

### Maths

By the end of Year 5 you should know all your times tables up to  $12 \times 12$ , including their related division facts.

How quickly can you recall these? Can you identify all of the multiples in both ascending and descending order?

Practise your times tables by logging onto TT Rockstars and help your class out against the other Year 5 class in the rockstar battle each week!

### Home learning project (Optional)

These activities can be done in any order; you could choose to do one or several. Bring your completed projects into school before the end of the half term so that they can be displayed and celebrated.

This half term our topic is called ' **Tomb Raiders**'.

We will be learning about the Ancient Egyptian civilisation . To help support this learning you can create a home learning project that will be displayed and presented to the rest of the year group.

You can choose to research any part of the ancient Egyptian period; gods, farming, buildings... Here are some examples of tasks you may wish to do-Create your own tomb or coffin for a mummy, Research what ancient Egyptian homes looked like, then show in pictures, words or a model or Create a fact file about ancient Egypt.

We ask that projects be brought into school during the week beginning **Monday 16th October**. Rewards will be given to all projects submitted.

We see homework as serving 2 main purposes:

- Providing **opportunity** to learn new things and build on existing knowledge
- Encouraging **responsibility** in children's own learning

We ask that parents support this ethos and encourage children to complete the tasks that are set, by listening to them read and supporting them in learning their times tables.

**Due date: Monday 21st October**
